Career Interest Profiler

Introduction

You are about to begin the Career Interest Profiler, a tool that can help you discover the types of work activities and careers that match your interests. The interest profiler has 180 questions about work activities that people do at their jobs.

When choosing your answers, think about whether you would like or dislike doing a particular work activity if you had a chance to do it. Try not to think about whether you have enough education or training to perform the activity.

This is not a test. There are no right or wrong answers. The more accurately you answer each question, though, the better your results will be. If you need to leave the profiler in the middle and return later, remember to complete all the answers on the page you are on and click the "Save and Continue" button. When you return to this section, you will pick up where you left off.

When you are ready to begin, please click the "Start Profiler" button below.

- Conventional: 0

Your strongest interests are in **green**. You can think about your interests as work activities you like to do. Your interests can help you find occupations you might like to explore. The more an occupation meets your interests, the more likely it is to be satisfying and rewarding to you.

Are you ready to explore the occupations that match your interests? Just click the button below.

[View Matching Occupation List](#)

Definitions

Realistic: Realistic occupations frequently involve work activities that include practical, hands-on problems and solutions. They often deal with plants, animals, and real-world materials like wood, tools, and machinery. Many of the occupations require working outside, and do not involve a lot of paperwork or working closely with others.

Investigative: Investigative occupations frequently involve working with ideas, and require an extensive amount of thinking. These occupations can involve searching for facts and figuring out problems mentally.

Artistic: Artistic occupations frequently involve working with forms, designs and patterns. They often require self-expression and the work can be done without following a clear set of rules.

Social: Social occupations frequently involve working with, communicating with, and teaching people. These occupations often involve helping or providing service to others.

Enterprising: Enterprising occupations frequently involve starting up and carrying out projects. These occupations can involve leading people and making many decisions. Sometimes they require risk taking and often deal with business.

Conventional: Conventional occupations frequently involve following set procedures and routines. These occupations can include working with data and details more than with ideas. Usually there is a clear line of authority to follow.

Attendance Counts!

Skipping a class or full day of school can really add up over time. Find out how your missed days affect your chances of graduating on time!

**Results are based on research conducted by Robert Balfanz and Vaughan Byrnes on behalf of Johns Hopkins University Everyone Graduates Center in partnership with Get Schooled. [Read the entire report now.](#)*

ABSENCES ADD UP!

Use the slider tool to chart the Impact absences can have on your child. Just one day every so often can add up to months of missed learning time. Missing school can lower math and reading scores and leave your child less likely to graduate.
