Educational Improvement Organization - ATTACHMENT

The following programs presented in your application have been determined by the Department to constitute "innovative educational programs" as defined by law:

- * Virtual Simulation
- * Fast ForWord (Grades K-3)

The law requires that 80% of the contributions received by your organization from businesses awarded Educational Improvement Tax Credits must be used for these programs.

The organization must submit to the Department annually Appendix V certifying as to the amount of contributions received from businesses by the organization during its fiscal year and certifying that at least 80% of these annual receipts were contributed to the programs listed above. This statement will be used in conjunction with the organization's renewal application to determine whether or not the 80% contribution requirement has been met. The statement must be submitted to the Department with the renewal application beginning May 1st.

The organization will be responsible for supplying a contribution receipt to the company making a contribution under the EITC program. Receipts must include the following information: the organization's name, the company's name, the amount of contribution, date and number of check. If a company has multiple entities each entity should be receipted separately. If the organization has multiple listings, the receipt must indicate whether the donation was made to the Scholarship Organization, Educational Improvement Organization or Pre-Kindergarten Scholarship Organization.
